Charlotte, NC 28272

Important to know

Your next meter reading: Sep 16

Please be sure we can safely access your meter. Don't worry if your digital meter flashes eights from time to time. That's a normal part of the energy measuring process.

Your electric service may be disconnected if your payment is past due

If payment for your electric service is past due, we may begin disconnection procedures. If your service is disconnected because of a missed payment, you must pay your past-due balance in full, plus a reconnection fee, before your service will be reconnected. The reconnection fee is \$8.00. A security deposit may also be required.

Electric service does not depend on payment for other products or services

Non-payment for non-regulated products or services (such as surge protection or equipment service contracts) may result in removal from the program but will not result in disconnection of electric service.

When you pay by check

We may process the payment as a regular check or convert it into a one-time electronic check payment.

Late payment charges

A late payment charge of 1.0% will be added for any past due utility balance not paid by the due date.

Storm Recovery Charge

This bill charge was approved in a financing order issued to DEC by the NCUC to recover storm recovery property. As approved by the NCUC, a special purpose entity is the owner of the rights to collect the storm recovery charge and DEC acts as the agent collecting for the special purpose entity. Visit duke-energy.com/SRC to learn more.

Para nuestros clientes que hablan Español

Representantes bilingües están disponibles para asistirle de lunes a viernes de 7 a.m. - 7 p.m. Para obtener más información o reportar problemas con su servicio eléctrico, favor de llamar al 800.777.9898.

Your usage snapshot - Continued

Current Electric Usage

<u>Meter Number</u>	<u>Usage Type</u>	<u>Billing Period</u>
319709802	Actual	Jul 17 - Aug 15
<u>Usage Values</u>		
Billed kWh		1,759.840 kWh
Actual Demand-kW		5.120 kW
Billed Demand kW		30.000 kW

A kilowatt-hour (kWh) is a measure of the energy used by a 1,000-watt appliance in one hour. A 10-watt LED lightbulb would take 100 hours to use 1 kWh.

Your current rate is Industrial Service (I).

For a complete listing of all North Carolina rates and riders, visit duke-energy.com/rates

A rider is a mechanism used to recover costs or credit customers for programs, purchases or regional policy initiatives that are outside of standard base rates. **The Summary of Rider Adjustments** line item found in the Billing Details includes, but is not limited to: fuel- related costs, demand-side management, energy efficiency program costs, generation assets, and the competitive procurement of renewable energy. For additional detail, please visit duke-energy.com/rates to view the Summary of Rider Adjustments tariff found within the **Index of Rate Schedules** tab. Each of the individual rider tariffs are located under the Retail Riders heading.
